

The Hockey School Success

The Bob Johnson Hockey School can attribute its 47 years of success to the quality of its highly skilled instructional staff.

We have always placed a priority on selecting coaches who are experienced teachers of the game and have the skill to communicate with players of all ages and ability levels.

The staff is led by Mark Johnson, coach of the 2010 USA Olympic Women's Ice Hockey team and Peter Johnson, former Badger player and coach.

Our Mission is to provide an instructional experience that allows a student to improve their skills, their knowledge of the game, and overall self-confidence as it relates to the game through a "positive" learning experience.

We accomplish our mission by focusing our efforts on providing the following:

- ⇒ Individual instruction
- ⇒ Innovative drills and teaching techniques from International experience
- ⇒ Progressive curriculum that focuses on all the fundamentals
- ⇒ A disciplined, yet fun and challenging learning environment
